James Debney, American Outdoor Brands Corporation President and Chief Executive Officer, commented, "Fiscal 2019 was a year that presented challenges for the firearms industry, including changes in the political environment and reduced consumer demand for firearms and for the accessories that are attached to them, such as lights, lasers, and scopes. Despite that backdrop, we delivered year over year growth in revenue and gross margin, and we believe we gained market share. At the same time, we made significant progress toward our long-term strategy with the construction and ramp up of initial operations at our new Missouri Campus, which will house our Logistics \& Customer Services Division and our Outdoor Products \& Accessories Division. This state-of-the-art, 633,000 square foot facility, which has now successfully commenced initial operations, will serve as the centralized logistics, warehousing, and distribution operation for our entire business, enabling growth, enhancing efficiencies, and allowing us to better serve customers across the organization. It will also serve as the office location for our entire Outdoor Products \& Accessories business. When fully complete, the Missouri Campus will also have allowed us to eliminate 570,000 square feet of operations, office, warehouse, and third-party space across multiple locations, improving our efficiencies and generating capacity for future growth. This is an important strategic initiative supporting our objective to be the leading provider of quality products for the shooting, hunting, and rugged outdoor enthusiast."
"In our Outdoor Products \& Accessories segment, which generated $25 \%$ of our total yearly net sales, we delivered year-over-year sales growth of $3.3 \%$ and launched over 300 innovative new products, including the Caldwell Hydrosled, the Frankford M-Press, and the BOG DeathGrip Hunting Tripod. We introduced a new line of sights and scopes from our Crimson Trace brand, which not only broadened our product offering, but also greatly expanded our addressable market for this brand, and we launched an exciting re-branding initiative that expanded our BUBBA brand from a single product focus to an exciting lifestyle brand with a variety of new products that address the broader category of fishing gear and accessories."
"In our Firearms segment, sales grew 6.3\% over the prior fiscal year. While consumer demand remained weak throughout fiscal 2019, as indicated by Adjusted NICS background checks which were down $8.8 \%$ year over year, our units shipped into the sporting goods channel increased $4.2 \%$. We introduced 106 new firearm skus, including 32 meaningful new products and numerous line extensions. At the end of the year we launched our Performance Center M\&P 380 Shield EZ, a high performance version of our original Shield EZ, which has become a favorite for consumers seeking an easy-to-manage, personal protection firearm. Our Shield family products has become a consumer favorite, and by the end of fiscal 2019 we had
shipped over 3 million Shield pistols. We are now approaching the $\$ 1$ billion-dollar milestone for cumulative sales of the Shield family of handguns. Lastly, we introduced several bundle promotions, which combine a firearm with accessories from our Outdoor Products \& Accessories segment, delivering customers a great value with brand names they know and trust."

Jeff Buchanan, Executive Vice President, Chief Financial Officer, and Chief Administrative Officer, commented, "The strength of our balance sheet in fiscal 2019 supported a number of initiatives throughout the year. At the end of our fiscal year, our balance sheet remained strong with approximately $\$ 41.0$ million dollars of cash and $\$ 115.4$ million dollars of total net borrowings. I would note that we paid down $\$ 25$ million dollars on our line of credit in the fourth quarter, resulting in no borrowings on the line of credit at the end of the year. We have reduced our net borrowings by nearly $\$ 100.0$ million dollars in less than two years, while still investing heavily in our business, including small acquisitions and our new Logistics \& Customer Services facility. Currently our long-term borrowings consists of $\$ 75.0$ million dollars in Senior Notes due in 2020, and $\$ 81.4$ million dollars on our Bank Term Loan A, also due in 2020."

## Reconciliation of U.S. GAAP to Non-GAAP Financial Measures

In this press release, certain non-GAAP financial measures, including "non-GAAP net income," "Adjusted EBITDAS," and "free cash flow" are presented. From time-to-time, the company considers and uses these supplemental measures of operating performance in order to provide the reader with an improved understanding of underlying performance trends. The company believes it is useful for itself and the reader to review, as applicable, both (1) GAAP measures that include (i) amortization of acquired intangible assets, (ii) transition costs, (iii) acquisition-related costs, (iv) fair value inventory step-up expense, (v) debt extinguishment costs, (vi) recall related expenses, (vii) the tax effect of non-GAAP adjustments, (viii) net cash provided by operating activities, (ix) net cash used in investing activities, ( x ) acquisition of businesses, net of cash acquired, (xi) receipts from note receivable, (xii) interest expense (xiii) income tax expense, (xiv) depreciation and amortization, (xv) stock-based compensation expenses, (xvi) discontinued operations, (xvii) changes in contingent consideration, (xiii) Tax Reform, and (xix) goodwill impairment; and (2) the non-GAAP measures that exclude such information. The company presents these non-GAAP measures because it considers them an important supplemental measure of its performance. The company's definition of these adjusted financial measures may differ from similarly named measures used by others. The company believes these measures facilitate operating performance comparisons from period to period by eliminating potential differences caused by the existence and timing of certain expense items that would not otherwise be apparent on a GAAP basis. These non-GAAP measures have limitations as an analytical tool and should not be considered in isolation or as a substitute for the company's GAAP measures. The principal limitations of these measures are that they do not reflect the company's actual expenses and may thus have the effect of inflating its financial measures on a GAAP basis.
