American Outdoor Brands Corporation Reports Third Ouarter Fiscal 2017 Financial Results

- Third Quarter Net Sales of \$233.5 Million, up 10.8% Year-Over-Year - Third Quarter GAAP Net Income per Diluted Share of \$0.57
- Third Quarter Non-GAAP Net Income per Diluted Share of \$0.66

SPRINGFIELD, Mass., March 2, 2017 — **American Outdoor Brands Corporation (NASDAQ Global Select: AOBC)**, one of the world's leading providers of firearms and quality products for the shooting, hunting, and rugged outdoor enthusiast, today announced financial results for the third quarter of fiscal 2017, ended January 31, 2017.

Third Quarter Fiscal 2017 Financial Highlights

- Quarterly net sales were \$233.5 million compared with \$210.8 million for the third quarter last year, an increase of 10.8%.
- Gross margin for the quarter was 42.5% compared with 41.1% for the third quarter last year.
- Quarterly GAAP net income was \$32.5 million, or \$0.57 per diluted share, compared with \$31.4 million, or \$0.56 per diluted share, for the comparable quarter last year.
- Quarterly non-GAAP net income was \$37.6 million, or \$0.66 per diluted share, compared with \$33.2 million, or \$0.59 per diluted share, for the
 comparable quarter last year. GAAP to non-GAAP adjustments in net income exclude a number of acquisition-related costs, including
 amortization, one-time transaction costs, inventory valuation adjustments, and a one-time holding company rebranding expense. For a detailed
 reconciliation, see the schedules that follow in this release.
- Quarterly non-GAAP Adjusted EBITDAS was \$67.6 million, or 28.9% of net sales, compared with \$61.5 million, or 29.2% of net sales, for the
 comparable quarter last year.
- The company completed the acquisition of substantially all of the assets of Ultimate Survival Technologies, Inc. ("UST"), a provider of high-quality survival and camping products, for \$33.0 million in cash and up to \$2.0 million, due over two years, contingent upon the financial performance of the acquired business. UST is included in the company's Outdoor Products & Accessories segment.

James Debney, American Outdoor Brands Corporation President and Chief Executive Officer, said, "Today we are pleased to report our third quarter results, which include a strategic acquisition in the rugged outdoor space, several new product introductions, revenue growth that was on target, and profitability that exceeded the high-end of our guidance range. Toward the end of the quarter, consumer firearm purchasing began to cool – a trend that underscores the importance of remaining focused on our strategy to continue growing and balancing our business across the shooting, hunting, and rugged outdoor enthusiast markets. In our Firearms segment, we attended the SHOT Show in January where we launched our next generation, full size M&P M2.0 pistol, significantly strengthening our growing

family of innovative polymer pistols. Higher year-over-year revenue in the Outdoor Products & Accessories segment was driven largely by our acquisitions of Taylor Brands, LLC, Crimson Trace Corporation, and UST, all of which occurred in the current fiscal year, combined with organic segment revenue growth of 4.8%. During the quarter, we hired Brian Murphy, an industry veteran, who will focus on increasing our presence in the rugged outdoor recreation market, in areas such as camping, hiking and fishing - all of which resonate strongly with many of our core firearms consumers and retailers."

"Lastly, during the quarter, we successfully rebranded our holding company as American Outdoor Brands Corporation, a name that better represents our strategic direction as we explore markets outside of our core firearms business. Overall, we remain committed to creating long-term shareholder value by innovating, preserving and selectively acquiring strong brands that best meet the needs and lifestyles of our valued customers," concluded Debney.

Jeffrey D. Buchanan, Executive Vice President, Chief Financial Officer, and Chief Administrative Officer, said, "During our third quarter, strong November results more than offset late-quarter declines in both NICS background checks and firearm product shipments. That late quarter shift in consumer demand patterns has since carried forward into our fiscal fourth quarter. Accordingly, we have updated our full year guidance."

"Operating cash flow during the quarter was \$48.2 million and we invested \$33.0 million in acquisitions and paid off the \$25 million outstanding on our line of credit. We ended the quarter with cash of \$54.3 million, outstanding long-term debt of \$170.6 million, and no borrowings on our \$350 million banking line of credit, which is expandable to \$500 million. Our strong balance sheet provides us with opportunities to activate our unused \$50 million stock buyback authorization, and to further diversify our company by investing in our future – both organically and through highly selective, strategic acquisitions," concluded Buchanan.

Reconciliation of U.S. GAAP to Non-GAAP Financial Measures

In this press release, certain non-GAAP financial measures, including "non-GAAP net income," "Adjusted EBITDAS," and "free cash flow" are presented. From time-to-time, the company considers and uses these supplemental measures of operating performance in order to provide the reader with an improved understanding of underlying performance trends. The company believes it is useful for itself and the reader to review, as applicable, both (1) GAAP measures that include (i) amortization of acquired intangible assets, (ii) accessories transition costs, (iii) discontinued operations, (iv) DOJ and SEC costs including insurance recovery costs, (v) acquisition-related costs, (vi) fair value inventory step-up and backlog expense, (vii) bond premium paid, (viii) debt extinguishment costs, (ix) the tax effect of non-GAAP adjustments, (x) net cash provided by operating activities, (xi) net cash used in investing activities, (xii) acquisition of businesses, net of cash acquired, (xiii) receipts from note receivable, (xiv) interest expense (xv) income tax expense, (xvi) depreciation and amortization, (xvii) corporate rebranding expenses, and (xviii) stock-based compensation expense; and (2) the non-GAAP measures that exclude such information. The company presents these non-GAAP measures because it considers them an important supplemental measure of its performance. The company's definition of these adjusted financial measures may differ from similarly named measures used by others. The company believes these measures facilitate operating performance comparisons from period to period by eliminating potential differences caused by the existence and timing of certain expense items that would not otherwise be apparent on a GAAP basis. These non-GAAP measures have limitations as an analytical tool and should not be considered in isolation or as a substitute for the company's GAAP measures. The principal limitations of these measures are that they do not reflect the company's actual expenses and may thus have the effect of inflating
