### American Outdoor Brands Corporation Reports Second Ouarter Fiscal 2020 Financial Results

SPRINGFIELD, Mass., December 5, 2019 — American Outdoor Brands Corporation (NASDAQ Global Select: AOBC), one of the world's leading providers of firearms and quality products for the shooting, hunting, and rugged outdoor enthusiast, today announced financial results for the second quarter fiscal 2020, ended October 31, 2019.

### Second Quarter Fiscal 2020 Financial Highlights

- Quarterly net sales were \$154.4 million compared with \$161.7 million for the second quarter last year, a decrease of 4.5%. It should be
  noted that \$8.1 million of incremental revenue in the quarter was the result of a change required by the Tax and Trade Bureau related to the
  timing of federal excise tax assessment within the company's Firearms segment. That change had no impact on gross margin dollars or
  operating expenses. Further details related to that change are outlined in the company's Form 10-Q filed concurrently with this press
  release.
- Gross margin for the quarter was 32.6% compared with 34.9% for the comparable quarter last year.
- Quarterly GAAP net income was \$1.3 million, or \$0.02 per diluted share, compared with net income of \$6.7 million, or \$0.12 per diluted share, for the comparable quarter last year.
- Quarterly non-GAAP net income was \$5.2 million, or \$0.09 per diluted share, compared with \$11.0 million, or \$0.20 per diluted share, for the comparable quarter last year. GAAP to non-GAAP adjustments to net income exclude a number of acquisition-related costs and other costs. For a detailed reconciliation, see the schedules that follow in this release.
- Quarterly non-GAAP Adjusted EBITDAS was \$20.9 million, or 13.5% of net sales, compared with \$26.7 million, or 16.5% of net sales, for the comparable quarter last year.

James Debney, American Outdoor Brands Corporation President and Chief Executive Officer, commented, "During the second quarter, we remained focused on innovation throughout our company. In firearms, we began shipping into the channel a major new product, which will be available to our consumer customers on December 12. In both our firearms and our outdoor products and accessories businesses, we prepared a large number of exciting new products for launch at SHOT Show in January 2020."

"Subsequent to the end of the second quarter, we announced a plan to spin-off our outdoor products and accessories business as a tax-free stock dividend to our stockholders. We expect to complete the transaction in the second half of calendar 2020, thereby creating two independent publicly traded companies: Smith & Wesson Brands, Inc. (the firearm business) and American Outdoor Brands, Inc. (the outdoor products and accessories business), each of which are leaders in their industries. We believe the spin-off will drive long-term value for our stockholders by enabling the management team of each company to focus on its specific strategies, including structuring its business to take advantage of growth opportunities in its specific markets; tailoring its business operation and financial model to its specific long-term strategies; and aligning its external financial resources, such as stock, access to markets, credit, and insurance factors, with its particular type of business. In order to provide our stockholders with better visibility into each of these businesses, we will begin providing revenue guidance for each business, beginning with today's financial results announcement."

Jeff Buchanan, Executive Vice President, Chief Financial Officer, and Chief Administrative Officer, commented, "At the end of the quarter, our balance sheet remained strong with cash of \$43.8 million and total net borrowings of \$159.4 million. That, combined with our twelve-month trailing EBITDAS, translates to a net leverage ratio of approximately 1.7 to 1.0. We expect to substantially reduce that ratio by the end of the current fiscal year. In preparation for the recently announced spin-off of our outdoor products and accessories business, and since the end of our second fiscal quarter, we have finalized an amendment to our existing revolving credit facility that supports our proposed spin-off without the need for further bank approvals. As a result, in November, we repaid our bank term loan that was due in June 2020 from that amended credit facility, and we called our Senior Notes, due in August 2020. Thus, all of our bank debt will be consolidated into the lower interest rate, revolving line of credit, which has a maturity date of October 2021."

The consummation of the spin-off is subject to final approval of the company's Board of Directors, customary regulatory approvals, and tax and legal considerations.

Intercompany eliminations are expected to be approximately \$20.0 million.

### Reconciliation of U.S. GAAP to Non-GAAP Financial Measures

In this press release, certain non-GAAP financial measures, including "non-GAAP net income," "Adjusted EBITDAS," and "free cash flow" are presented. From time-to-time, the company considers and uses these supplemental measures of operating performance in order to provide the reader with an improved understanding of underlying performance trends. The company believes it is useful for itself and the reader to review, as applicable, both (1) GAAP measures that include (i) amortization of acquired intangible assets, (ii) transition costs, (iii) fair value inventory step-up expense, (iv) recall related expenses, (v) change in contingent consideration; (vi) the tax effect of non-GAAP adjustments, (vii) net cash (used in)/provided by operating activities, (viii) net cash used in investing activities, (ix) interest expense, (x) income tax expense, (xi) depreciation and amortization, and (xii) stock-based compensation expenses,; and (2) the non-GAAP measures that exclude such information. The company presents these non-GAAP measures because it considers them an important supplemental measure of its performance. The

company's definition of these adjusted financial measures may differ from similarly named measures used by others. The company believes these measures facilitate operating performance comparisons from period to period by eliminating potential differences caused by the existence and timing of certain expense items that would not otherwise be apparent on a GAAP basis. These non-GAAP measures have limitations as an analytical tool and should not be considered in isolation or as a substitute for the company's GAAP measures. The principal limitations of these measures are that they do not reflect the company's actual expenses and may thus have the effect of inflating its financial measures on a GAAP basis.
